## Volkswagen Transporter 2 Westfalia Helsinki 1978

This is a stunning van, rebuild to the highest standards. It is a genuine German manufactured Westalia which spent it's life drifting around Northern Europe before ending up in the UK.

The Helsinki is, we think, the best Westfalia configuration with a full width rock and roll bed, plenty of storage and an optimal kitchen layout.

We have stripped the bus down to bare shell and painstaking restored it to its original condition, fitting a reconditioned 2litre engine and adding some modern touches.

### Exterior:

- Chassis never welded. Stripped right down to bare shell and thorough panel restoration by Doktor Dub.
- Pristine repaint, by Boyers Bodyshop in Cromer.

## Volkswagen Transporter 2 Westfalia Helsinki 1978

### Interior:

- Westfalia Helsinki interior, with wardrobe, drop-down stove, fridge and sink with 12v water pump, with original carpets and curtains for all windows, including the driver's cabin, with double glazed side windows all with new window seals.
- Front seats, door cards, inner panelling and roof linings re-trimmed, by All Trim in North Walsham.
- New elevated roof canvas in orange.
- Sargent EC160 provide engine and leisure battery management and charging with 240v hook-up and interior plug socket.
- Alpine CDE-113BT CD Receiver with iPod and USB Controller with Bluetooth and Alpine front and rear speakers.
- New inertia 3 point seat belts in front and rear with 2 point lap belt in centre of rear seat.

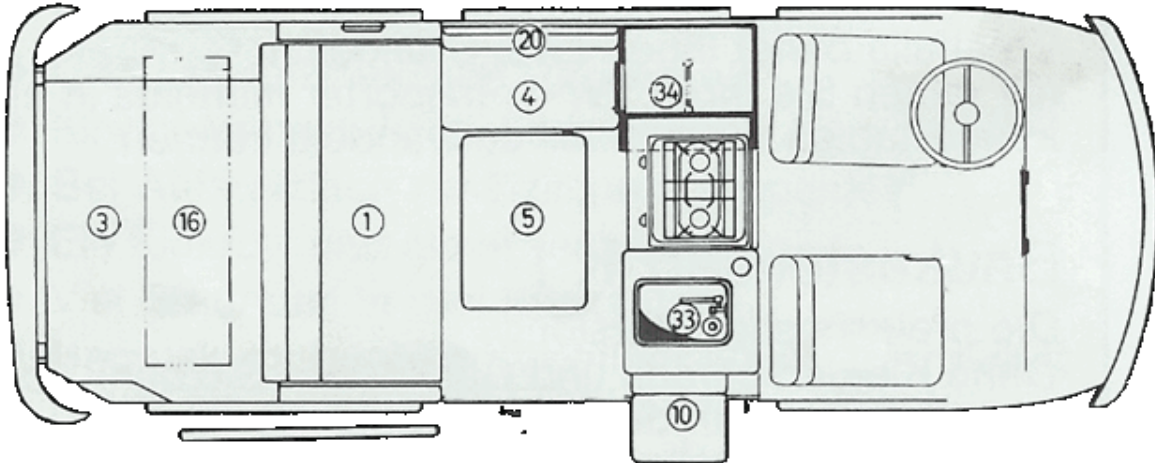

In summary, this is one of the best finished and loveliest to drive VW campervans we've seen and as one of the last T2 campervans made in Germany and fitted out by Westfalia it's an iconic vehicle!
